

Declaration of Individual Sovereignty

Why They Fear Your Non-Consent

Your consent matters. As sovereign beings you have the authority to say No, and in so doing to make THEM responsible for their crimes against you. They want you to consent to being hurt – even if that consent is passive. That’s why they tell you first what they are going to do, and if you do and say nothing – they take it as passive consent. They fear the due punishment for hurting you, so they want your passive consent so they can escape it.

THEY are counting on you saying and doing nothing because you feel disempowered, so they can assume your consent. However, once your consent is explicitly withdrawn, then THEY become fully responsible, and suffer the corresponding “karma”/retribution. They don’t want this.

So you can fight them by simply saying “NO” and making sure your voice is heard.

Declaration of No Consent

"I say NO to this UN declaration. My consent is withdrawn. I am a sovereign being and I REJECT any declaration by any foreign body that seeks to impose pandemic measures upon my sovereign nation. This is an assertion of my spiritual sovereignty, and a notice that you (the UN and its minions) will be held fully responsible for any suffering, injury or death resulting from imposition of pandemic measures upon me, my family, my community, my nation. I do not give my consent"

Signed [Your name]

You can post your declaration anywhere online. Email it to yourself and to others. Wear your declaration as a badge.

In Moses time, he asked the Israelites to place a mark above their door, so the angel of death would pass them by. Put a symbol or “mark” above your door for all to see. Let it be known that you and your household are saying No to harmful pandemic measures – you do not give your consent.

Will it be Effective ?

God sees your declaration, and so will hold the enemy responsible for any injury to you – which is something the enemy wishes to avoid. So you will increase your protection by doing this.
