

Holocaust Survivors Speak Out in support of Kaira McCallum

Three of the survivors of Nazi concentration camps, are appalled by the evil they see unfolding once more, this time all over the world – and in particular, the apparent total disregard for the Nuremberg Code.

The Holocaust survivors, Vera Sharov, Moshe Brown and Hillel Handler reiterated the calls made by Attorney Melinda C. Mayne, and Kaira S. McCallum for the COVID-19 ‘vaccine’ programme to be halted with immediate effect, so that the very great number of deaths and serious adverse events that are occurring on a daily basis can be put to an end.

‘We as survivors of the concentration camps, witnessed many atrocities being committed in the Second World War and we were told this would never happen again , but yet it is happening again.

What a damning realisation: How many elderly people were coerced by fear to take the ‘vaccine’ and have not survived? How many survived the Holocaust but didn’t survive the COVID-19 injection? How many survived the medical experiments in Auschwitz and Birkenau but didn’t survive this contemporary medical experiment?

We therefore implore you to accept the joint ‘Request for Investigation’ from the United Kingdom, Slovakia, France and the Czech Republic and immediately and without further delay, open an urgent investigation into the crimes against humanity, the genocide and the breaches of the Nuremberg Code by numerous Perpetrators, which has resulted in so many needless deaths and serious injuries and continues to do so on a daily basis. The International Criminal Court as the court of last resort, has a duty to investigate these, the most heinous of crimes and to bring the Perpetrators to justice.

It is in your power to save lives. We are aware that several criminal charges have been dismissed by you on formal grounds. Regardless of technicalities, you have read them. We know that you are aware because of these claims, that millions of people are being hurt and dying by the so-called vaccination . For example, the Israeli lawyers have provided casualty figures in Israel and access to the EMA database of side effects. That was more than three months ago. Since that time, more people have died, become terminally ill, or been injured (see above). And you have not intervened. You further condone the fact that children are now increasingly among the victims of ‘vaccination’. It is up to you to punish the deliberate acts against life and limb, not to carry yourself with intent by an approving acceptance of attack on human life.

Every day that you waste idly, human lives are destroyed, children’s lives. We demand an immediate end to the vaccination campaign and an immediate investigation of the evidence available to you. People will forgive a mistake. A deliberate murder of their children – not. Do the right thing.

History will not look kindly upon you if you fail in your duty to do this. Know that our eyes and those of the peoples of the world are upon you – the responsibility is yours. You know what is happening, you have the evidence and now you must act.

Attorney Melinda C. Mayne, and Kaira S. McCallum call on the International Criminal Court to accept the **Request for Investigation** and bring criminal charges against the likes of **Chris Whitty, Matt Hancock, and Patrick Vallance** in the **United Kingdom**.

By signing the petition (which you can do so [here](#)), you will be calling upon “the ICC and the Office of the Prosecutor of the ICC, and the United Nations Liaison Office of the ICC, to forthwith accept the Joint Request for Investigation, the Sworn Affidavits, the Nazi Concentration Camp Survivors’ Letter of Support, and supporting documents and materials, and to begin the Investigation and Criminal Prosecution of those individuals identified in the submitted documents, and those individuals identified in the interrogatories, depositions and investigation of those so identified.”
