

Insight into a Religious Motivation for the Pandemic?

The Georgia Guidestones (erected on 22nd March 1980)

A message consisting of a set of ten guidelines or principles is engraved on the Georgia Guidestones^[8] in eight different languages, one language on each face of the four large upright stones. Moving clockwise around the structure from due north, these languages are: English, Spanish, Swahili, Hindi, Hebrew, Arabic, Traditional Chinese, and Russian.

1. Maintain humanity under 500,000,000 in perpetual balance with nature.
2. Guide reproduction wisely — improving fitness and diversity.
3. Unite humanity with a living new language.
4. Rule passion — faith — tradition — and all things with tempered reason.
5. Protect people and nations with fair laws and just courts.
6. Let all nations rule internally resolving external disputes in a world court.
7. Avoid petty laws and useless officials.
8. Balance personal rights with social duties.
9. Prize truth — beauty — love — seeking harmony with the infinite.
10. Be not a cancer on the Earth — Leave room for nature — Leave room for nature.

This monument presents itself as –

- a new Mosaic Code (10 commandments),
- written on stone
- describes a new world (Promised Land)
- a lower population - only 500 million–
- ruled by justice, self-control, respect for nature
- unity of all nations.

And just as Moses was 40 years in the desert before he entered the Promised Land, so there are exactly 40 years from the creation of this monument, until 2020, when we find that all the countries suddenly unite for the purpose of bringing about a new world order – which includes rapid population reduction, and a focus on the environment.

All the Countries Acting In Step

It has always seemed to me to be quite a coincidence that all the countries of the world, within the space of 1 month, simultaneously decided to adopt identical policies regarding a disease that posed no real threat to the majority of their populations. It resembled a choreographed dance.

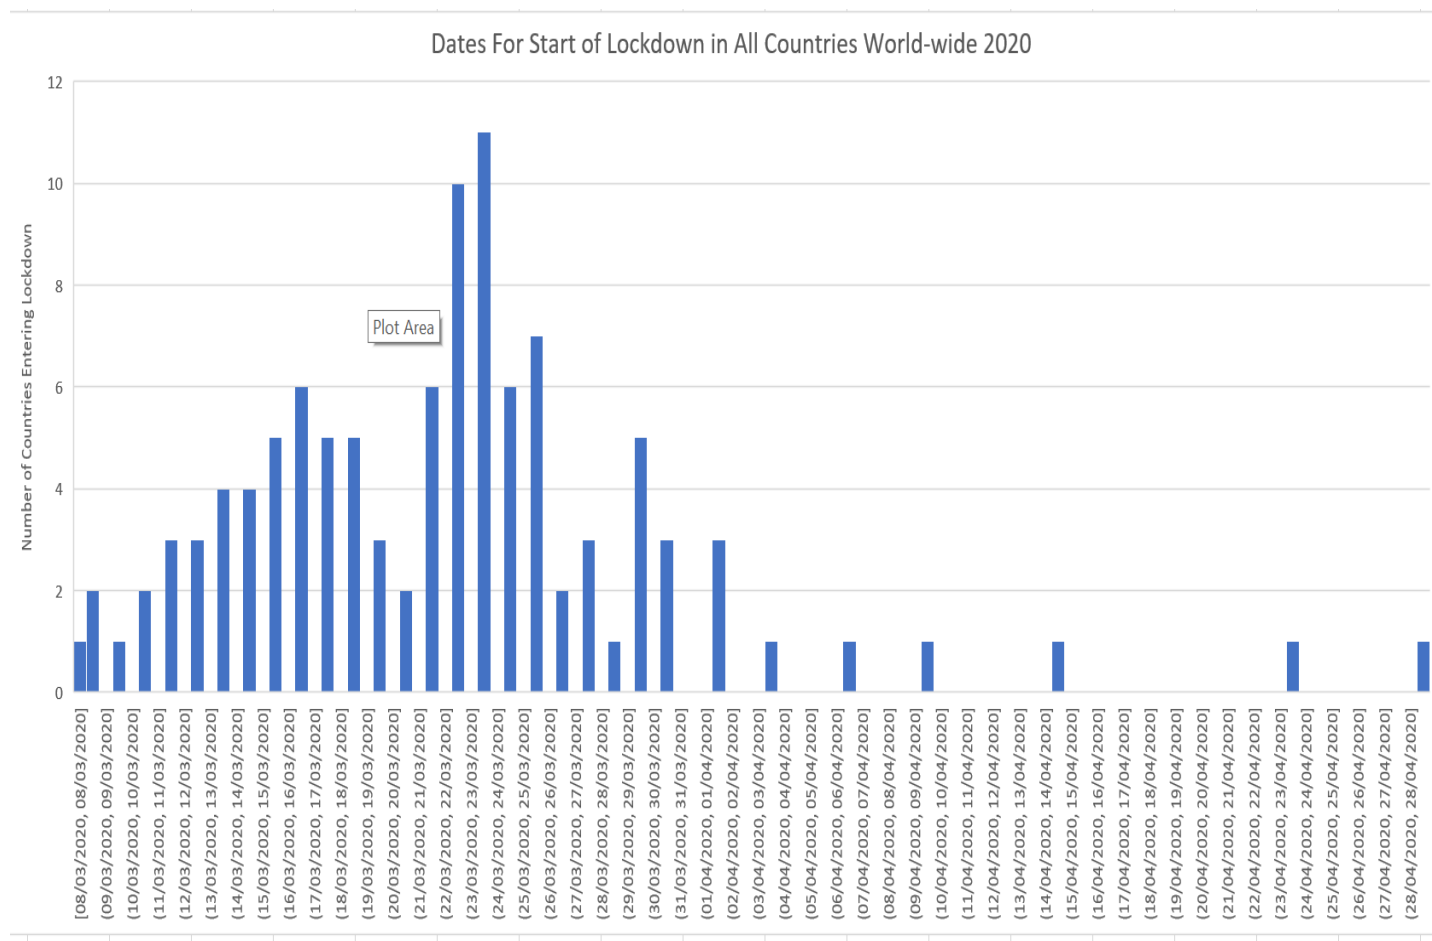

When Did Lockdown Begin

I wanted to see if there was any relationship between the date of erection of the Georgia Monument, and the dates of lockdown of every country world-wide during 2020.

I obtained all the dates of lockdown here –

https://en.wikipedia.org/wiki/COVID-19_lockdowns

I put all the dates into excel to create a histogram. I suspected that there would be a coincidence with the date 22nd March. Here are the results.

You will notice that the peak of lockdowns occurred the very next morning on 23rd March.

The New World Order as a Promised Land

If the pandemic is an enactment of a Biblical pattern, then its vision of a New World Order is being framed as the Promised Land.

However, before Governments can orchestrate this promised land, they will destroy the existing system first.
